Supplementary Information: Section 156 of Title 35, United States Code, generally provides that the term of a patent may be extended for a period of up to 5 years if the patent claims

a product, or a method of making or using a product, that has been subject to certain defined regulatory review. Under section 156, a patent is eligible for term extension only if regulatory review of the claimed product was completed before the original patent term expired.

On December 3, 1993, section 156 was amended by Pub. L. No. 103-179 to provide that if the owner of record of the patent or its agent reasonably expects the applicable regulatory review period to extend beyond the expiration of the patent, the owner or its agent may submit an application to the Commissioner of Patents and Trademarks for an interim extension of the patent term. If the Commissioner determines that, except for permission to market or use the product commercially, the patent would be eligible for a statutory extension of the patent term, the Commissioner shall issue to the applicant a certificate of interim extension for a period of not more than one year. The owner of record of the patent or its agent may apply for a subsequent one-year interim extension.

On January 7, 1994, The Procter & Gamble Company, owner of record in the Patent and Trademark Office of U.S. Patent No. Re. 34,617 of U.S. Patent No. 4,005,196, filed an application for interim extension of the term of the patent under 35 U.S.C. § 156(d)(5). The application states that the patent claims a composition of matter comprising the food additive product olestra. The application indicates that the product is currently undergoing a regulatory review before the Food and Drug Administration for permission to market or use the product commercially. The original term of the patent expired on January 25, 1994. On January 14, 1994, a first one-year interim extension was granted under 35 U.S.C. § 156(d)(5). The extended term of the patent expires on January 25, 1995. On December 1, 1994, applicant requested a second one-year interim extension of the term of the patent.

Review of the application indicates that, except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. § 156. Since it is apparent that the regulatory review period may extend beyond the expiration of the first one-year interim extension of the original patent term, a second one-year interim extension of the patent term under 35 U.S.C. § 156(d)(5) is appropriate. Accordingly, a second one-year interim extension under 35 U.S.C. § 156(d)(5) of the term of U.S. Patent No. Re. 34,617 of U.S. Patent No. 4,005,196 has been granted from the expiration of the first one-year interim extension of the original expiration date of the patent.

RIN 0651-AA65

Cross-Appeals in Patent and Trademark Office Disciplinary Proceedings

Agency: Patent and Trademark Office, Commerce.

Action: Proposed Rulemaking.

Summary: On July 21, 1993, the Patent and Trademark Office (PTO) proposed amending a rule of practice in practitioner disciplinary proceedings. 58 FR 38994. The proposed rule change provides for a time period for a party to a disciplinary proceeding to file a cross-appeal, after the other party (the respondent or the Director of the Office of Enrollment and Discipline) to the proceeding has appealed from the initial decision of the administrative law judge (ALJ) to the Commissioner. Currently, PTO rules do not provide for such a time period. A party in a disciplinary proceeding may be interested in appealing only if the other party has appealed. Allowing a time period for filing a cross-appeal will give parties to disciplinary cases more flexibility after an initial decision by the administrative law judge and will avoid the necessity of filing a contingent appeal simply to preserve rights in the event the other party files an appeal.

One comment to the rule change proposed on July 21, 1993, was received suggesting substantive changes. This second notice adopts that suggested change.

Dates: Written comments must be received on or before [March 16, 1995] to ensure consideration. An oral hearing will not be conducted.

Addresses: Address written comments to Commissioner of Patents and Trademarks, Box OED, Washington, D.C. 20231, marked to the attention of Harry I. Moatz. Written comments will be available for public inspection in Suite 518, on the 5th floor of Crystal Park I, located at 2011 Crystal Drive, Arlington, Virginia.

For Further Information Contact: Harry I. Moatz by telephone at (703) 308-5273 or by mail marked to his attention and addressed to Commissioner of Patents and Trademarks, Box OED, Washington, D.C. 20231.

Supplementary Information: A Notice of Proposed Rulemaking was published in the Federal Register (58 FR 38994) on July 21, 1993, and in the *Official Gazette* of the PTO (1153 Off. Gaz. 32) on August 10, 1993. Comments were due August 20, 1993. One comment was received. The comment suggested a substantive change to the original proposed rulemaking. The PTO has adopted the change and is now publishing a second notice requesting comments on the amended notice.

Pursuant to 37 CFR § 10.132 *et seq.*, the Director of the Office of Enrollment and Discipline within the PTO may initiate a disciplinary proceeding against a practitioner. If the proceeding is contested by the practitioner and the Director continues to prosecute, an ALJ for the Department of Commerce enters an initial decision which includes findings of fact, conclusions of law and an order. 37 CFR § 10.154.

Either party to the proceeding may appeal from the initial decision of the ALJ to the Commissioner within thirty (30) days of the date of the decision. 37 CFR § 10.155(a). However, prior to this proposed rule change, § 10.155(a) did not provide for the filing of a cross-appeal.

With regard to interference proceedings, 37 CFR § 1.304(a) addresses the filing of cross-appeals by stating in pertinent part that:

> the time for filing a cross-appeal [to the Court of Appeals for the Federal Circuit] or cross-action [in a district court] expires (1) 14 days after service of the notice of appeal or the summons and complaint or (2) two months after the date of decision of the Board of Patent Appeals and Interferences, whichever is later.

The proposed rule change is similar to the cross-appeal authorized in interference proceedings.

Response to and Analysis of Comment: The single comment suggested that the second sentence of the proposed § 10.155(a) be modified by adding "pursuant to § 10.142" after "(1) 14 days after service of the appeal" to make clear that the period for filing a cross-appeal or reply brief runs from service pursuant to § 10.142. The suggestion is being adopted. The comment further suggested that the fifth sentence in the rule proposed on July 21, 1993, be separated into three new sentences. The first and second new sentences make clear that "the other party to an appeal or cross-appeal may file a reply brief," and that a "reply brief by the respondent" is to be "served in duplicate with the Director." The third new sentence provides a date certain for filing any reply brief by avoiding uncertainty as to when "receipt" of an appeal, cross-appeal or copy thereof occurs, and by relying on the date of "service pursuant to § 10.142" of an appeal, cross-appeal, or a copy thereof. The suggestions have been adopted in the proposed rules.

Other Considerations: This rule change conforms with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12612 and 12866, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the rule change will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of the rule change is to provide a time period to file a cross-appeal in a PTO disciplinary proceeding. See the original notice of proposed rulemaking published in the *Federal Register*, 58 FR at 38996.

The PTO has determined that the rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612. The Office of Management and Budget has determined that the rule change is not significant for the purposes of Executive Order 12866.

The rule change will not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, since no record keeping or reporting requirements within the coverage of the Act are placed upon the public.

For the reasons set out in the preamble, and pursuant to the authority contained in 35 U.S.C. 6, the PTO proposes to amend 37 CFR part 10 as follows, wherein deletions are indicated by brackets ([]) and additions by arrows (cb):

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
